

## **2015-2016 Annual Security Report & Emergency Policies and Procedures Student Edition**

### **INCIDENT REPORTING PROCEDURES**

All emergency situations, criminal activity and suspicious activity that may require police and/or emergency personnel intervention should be reported immediately to either the Southfield or Farmington Hills police department by calling 9-1-1. The individual who makes that call should then notify the Student Success Department and/or the Front Desk Receptionist. That individual will then be asked to complete a "SHS Incident Report Form". Since the Specs Howard School does not employ any security personnel nor do any employees of the school have the authority to arrest individuals, those reports should be done as promptly and accurately as possible.

If any action of an unlawful nature occurs that does not require immediate police/emergency personnel intervention, students and staff are instructed to report such incidents to the Student Success Department. A SHS Incident Report Form will then be completed by the individual who made the report. If a Student Success representative is unavailable, the form is available from the Front Desk receptionist. Crimes should be reported to the local police agency to ensure inclusion in the annual crime statistics and to aid in providing timely warning notices to the community when appropriate.

Upon receipt of the completed SHS Incident Report Form, the Student Success Department will communicate with and/or forward copies of the form to the President, COO, Vice President of Education, Director of Human Resources, and Building Manager for review. All incident reports are communicated for review and referral for other potential actions, as appropriate. Police authorities will be asked to investigate a report when it is deemed appropriate.

The Specs Howard School of Media Arts, Inc. does not own or control any non-campus buildings or properties, does not offer student housing, nor does the school employ any pastoral or professional counselors, as defined in the CFR 668.46, and thusly, the contents for official reporting for the school will not include these references.

### **TIMELY WARNING / CRIME ALERT**

In the event that a situation arises, either on or off campus, that, in the judgment of the President, COO, Vice President of Education, and Director of Human Resources constitutes an ongoing or continuing threat, a campus wide "timely warning" will be issued. These warnings/alerts will be issued in a manner that is timely and that will aid in the prevention of similar occurrences. Warnings/alerts will generally be distributed through the schools e-mail system, cell phone text messaging, voice phone messaging and verbal communications. Warnings/alerts will go out to students, faculty and staff.

Anyone with information warranting a timely warning should report the circumstances to the Student Success Department by phone or in person.

## **ACCESS AND CAMPUS SECURITY**

All students and staff are issued photo ID's to aid in maintaining security and controlling access to campus facilities. The ID's should be worn at all times.

## **CAMPUS SECURITY AWARENESS**

Campus security, crime prevention and awareness, and safety procedures are discussed during the First Day Orientation conducted by the Student Success Department.

## **SECURITY – CRIME PREVENTION**

SHS encourages all students and staff to take advantage of community anti-crime programs. Numerous crime awareness/prevention publications and information are available at no charge from the Southfield Crime Prevention Bureau (248-796-5400) and the Farmington Hills Crime Prevention Section (248-471-2754).

Sexual misconduct which occurs off-campus should be reported to the law enforcement agency for the city, township or county in which the misconduct took place.

This policy applies regardless of the sexual orientation or preference of individuals engaging in sexual activity. Title IX of the Education Amendments of 1972 ("Title IX") is a federal civil rights law that prohibits discrimination on the basis of sex in federally funded education programs and activities. All public and private Schools and universities receiving any federal financial assistance must comply with Title IX. Under Title IX, federally funded Schools and universities must ensure that students of all ages are not denied or limited in their ability to participate in or benefit from the school's educational programs or activities on the basis of sex. Sexual misconduct as defined in the above section of this Policy is a form sex discrimination prohibited by Title IX and this Policy.

Specs Howard School of Media Arts (SHS) is firmly committed to maintaining a campus environment free from sexual harassment, discrimination, stalking, intimidation, retaliation, and violence, including misconduct. Sexual misconduct will not be tolerated by the School and is expressly prohibited. The School has jurisdiction to investigate and take certain actions with respect to reports of sexual misconduct and retaliation covered by this Policy. Specs Howard School does not have the authority to make any arrests.

Persons covered by this Policy who engage in sexual misconduct and/or retaliation may be subject to discipline. In addition, SHS may take steps to prevent the recurrence of any sexual misconduct and remedy the discriminatory effects on the Complainant and others, if appropriate.

This Policy also expresses the School's commitment to provide information and educational programs designed to raise awareness of sexual misconduct and prevent the School community from falling victim to sexual misconduct.

## **The Law**

No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any educational programs or activity receiving federal financial assistance. -- From the preamble to Title IX of the Education Amendments of 1972

Title IX, as a landmark civil rights law, profoundly affects all aspects of schooling by requiring equal opportunity for females and males. By extension, it also affects equity in the labor market. The following highlights suggest many of the significant developments in gender equity that can be linked to Title IX.

### **Everyone Benefits from Title IX**

Title IX prohibits institutions that receive federal funding from practicing gender discrimination in educational programs or activities. Because almost all schools receive federal funds, Title IX applies to nearly everyone. The Office for Civil Rights in the U.S. Department of Education is charged with enforcing the civil rights and regulations in education, extending protection to

- about 51.7 million elementary and secondary school students;
- about 14.4 million School and school students;
- almost 15,000 school districts;
- more than 3,600 Schools and universities;
- more than 5,000 proprietary schools; and
- thousands of libraries, museums, vocational rehabilitation agencies, and correctional facilities.

Sexual misconduct can also include retaliation in connection with a Complainant's or Reporter's allegations under this policy. Sexual misconduct includes the following:

## **Policy Coverage**

This policy covers sexual misconduct and retaliation in connection with reports of possible sexual misconduct made under this Policy. Sexual misconduct encompasses a range of behaviors that can create a hostile educational environment, including sexual assault and sexual harassment, and stalking.

This policy applies to sexual misconduct or retaliation committed by a School student, employee\*, or a third party if that sexual misconduct or retaliation occurs:

- a) On campus, or
- b) Off campus, if:
  1. In connection with a School or School-recognized program or activity; or
  2. In a manner that may pose an obvious and serious threat of harm to, or that may have the effect of creating a hostile educational environment for, any member(s) of the School community.

This policy and related processes may also, at the School's discretion, apply to a Respondent's reported violations of other School policies if, in the School's judgment, those other allegations are directly related to the reported sexual misconduct.

\*Sexual misconduct reportedly committed by a School employee, including by student-employees in the context of their employment, will continue to be investigated by the Human Resources Department

## **Reporting Sexual Misconduct or Retaliation**

A report of sexual misconduct or retaliation may be made by:

- A person who believes they experienced sexual misconduct (a "Complainant"); or
- A person who has information that sexual misconduct may have been committed by a School student or employee, or by a third party (a "Reporter").

Reports of sexual misconduct or retaliation should be made to:

- Title IX Coordinators:
  - Avery Snyder  
Deputy Title IX coordinator  
Student Success Officer  
248-358-9000  
[asnyder@specshoward.edu](mailto:asnyder@specshoward.edu)
  
  - Mary Harms  
Title IX coordinator  
Director of Human Resources  
248-358-9000  
[mharms@specshoward.edu](mailto:mharms@specshoward.edu)

- Reports of sexual misconduct and other inappropriate or criminal behavior should be reported to any "Responsible Employee" or "School Security Authorities." All staff members are designated as "Responsible Employees" and/or "Campus Security Authorities" as required by the Jeanne Clery Act.

Reports made to the Responsible Employees or to a Campus Security Authority shall be forwarded to the Title IX Coordinator for review and investigation, if appropriate. In addition, upon being notified of an alleged sexual assault or other form of sexual misconduct that may constitute a crime, the Title IX Coordinator will notify the appropriate parties to ensure appropriate distribution of School-wide warnings, if needed, and maintenance of accurate crime statistics, and to assist in the investigation as may be required under the circumstances.

Sexual misconduct that occurs off campus should be reported to the law enforcement agency for the city, township or county in which the misconduct took place.

### **Importance of Timely Reporting**

To promote timely and effective investigation and review, the School strongly encourages Reporters and Complainants to make reports of possible sexual misconduct as soon as possible following the occurrence of the behavior giving rise to the concern. Although the Title IX Coordinator may pursue a report made later, the lapse of time may make it more difficult or impossible to gather relevant and reliable information.

### **Preservation of Evidence**

If an incident of sexual assault, domestic assault, dating violence, or stalking occurs, it is important to preserve evidence so that successful criminal prosecution remains an option. The victim of a sexual assault should not wash, shower or bathe, douche, brush teeth, comb hair, or change clothes prior to a medical exam or treatment.

If a victim has removed the clothing he or she was wearing during the assault prior to seeking medical treatment, that clothing should be placed in a brown paper, not plastic, bag and brought to the hospital when treatment is sought.

If the victim is still wearing the clothes that he or she was wearing during an assault, he or she should bring a change of clothes with him or her to the hospital so that the clothes containing possible evidence can be preserved and examined for evidence of the crime.

Evidence of violence, such as bruising or other visible injuries, following an incident of sexual assault, or domestic or dating violence, should be documented by taking a photograph.

Evidence of stalking, including any communications such as written notes, email, voice mail, or other electronic communications sent by the stalker, should be saved and not altered in any way.

### **School Response Procedure**

#### **Services**

Victims of sexual misconduct or retaliation will be offered appropriate confidential support and other resources. The Director of Human Resources and the Student Success' office will coordinate the provision of any services provided by various SHS offices. If the victim chooses, campus authorities will assist notifying law enforcement of the incident.

#### **Interim Interventions**

Specs Howard will take appropriate steps to prevent and/or address any retaliatory conduct against the complainant/victim that may be connected to a report. In addition, the School may take other action to protect the complainant/victim and School community as may be reasonable and appropriate under the circumstances. Such interim interventions may include separation of the complainant/victim and Respondent in the academic setting or

other interventions outlined in the "Sanctions" section of this policy. Interim interventions may be kept in place until the end of any review or appeal process.

### **Decision to Proceed with Investigation**

The Title IX Coordinator is not required to assign an investigator or otherwise investigate any report alleging facts that, if true, would not constitute a violation of this Policy. In all cases, the final decision on whether, how, and to what extent the School will conduct an investigation, and whether other measures will be taken in connection with any allegation of sexual misconduct or retaliation, rests solely with the Title IX Coordinator.

### **Requests for Confidentiality**

If the Complainant requests that his or her name not be disclosed to the alleged perpetrator, or asks that the report of sexual misconduct not be pursued, the Title IX Coordinator shall inform the student that honoring the request may limit the School's ability to respond fully to the incident, including pursuing disciplinary action against the alleged perpetrator. If the Complainant insists that his or her name not be disclosed to alleged perpetrator or that the School not investigate or seek action against the alleged perpetrator, the Title IX Coordinator shall determine whether the School can honor the Complainant's request while still providing a safe and nondiscriminatory environment for all students, including the Complainant.

In considering a Complainant's request for confidentiality that could preclude a meaningful investigation or potential discipline of the alleged perpetrator, the Title IX Coordinator should consider all relevant factors. If consideration of such factors results in a determination that the report must be investigated in order to provide a safe and nondiscriminatory environment for all students, the School may conduct an investigation and pursue disciplinary action, if appropriate, in a manner that discloses the student's identity to the alleged perpetrator.

### **Investigation**

If the Title IX Coordinator decides upon review to investigate a report of sexual misconduct or retaliation, he/she will generally forward a report to a Deputy Title IX Coordinator for assignment of an investigation. Upon assignment of a complaint to an Investigator, the Title IX Coordinator, and the Deputy Title IX shall confer with respect to the investigation. The investigator shall regularly report the progress of the investigation and review the information collected.

[mharms@specshoward.edu](mailto:mharms@specshoward.edu)

The Title IX coordinators and deputy coordinator will conduct an adequate, reliable, impartial and prompt investigation. In most cases, the coordinator will meet separately with the Complainant (if participating), Respondent, Reporter (if applicable), and interview any witnesses identified by Complainant, Respondent or the School. A digital audio recording may be made of any interview if appropriate under the circumstances. The coordinator will also review other relevant information gathered during the investigation, including any police investigatory documents and student or personnel records that may be available. Occasionally, a different or less formal response to the report may be warranted depending upon the nature of the report and the circumstances involved.

At any time during the course of an investigation, the Complainant, Respondent, or any witnesses may provide a written statement, other supporting materials, or identify other potential witnesses, regarding the matter under review. The Complainant and Respondent may have an advisor with them at any meeting related to the investigation of the reported misconduct.

Investigations shall be conducted by School employees that receive annual training on issues related to dating violence, domestic violence, sexual assault, and stalking and on how to conduct an investigation in a manner that protects the safety of victims, promotes accountability, and assures adequate due process for victims and respondents.

### **Standard of Proof**

The standard of proof used in an investigation case is the preponderance of the evidence (more likely than not). This standard requires that the information supporting a finding of responsibility be more convincing than the information in opposition to it. Under this standard, individuals are presumed not to have engaged in sexual misconduct or retaliation unless a preponderance of the evidence supports a finding that sexual misconduct or retaliation occurred.

- The school will provide a timely and thorough investigation, and will treat the complainant with respect before, during, and after the student conduct process.
- The victim will be informed of the school's conduct process and possible outcomes.
- The school will also provide the victim written notification of available counseling services, medical services, mental health services, and other campus and off campus resources for victims of sexual assault.
- Victims have the right to report a sexual assault to local law enforcement, which will not prevent school disciplinary action.
- Victims may request changes to academic situations after a sexual assault occurs. Student Success may be able to help facilitate such changes.
- Victims have the right to have one advisor throughout the investigation including meetings and hearings. The advisor may not be a witness in the case. In meetings with Student Success or in a hearing, the advisor may not participate directly and may only communicate with the victim via whispering or writing notes.
- The school will make reasonable efforts to protection confidentiality, within the parameters of FERPA (Family and Education Privacy Act of 1974) and the school conduct process.
- The victim is afforded the right to be updated on the investigation and be informed of the outcome of any hearing in writing.

- The victim has the right to have prior, irrelevant sexual behavior or history with other individuals excluded from a hearing. As a reminder, prior consensual behavior with the accused student does not indicate consent on subsequent occasions.
- The complainant and the respondent are entitled to have others present during any disciplinary hearing.
- Prior to a hearing, the victim is allowed to inform the Title IX coordinator of relevant witnesses the victim wishes to include at the hearing and to what the witnesses plan to testify.
- Prior to a hearing, the victim may also meet with a Title IX coordinator to discuss hearing procedures.
- During a hearing, the victim has the right to give opening and closing statements and ask questions of the accused student, via the coordinator.

### **Investigation Findings and Outcome Notification**

In most cases, the Title IX coordinator will report his/her findings in writing to the Deputy Title IX Coordinator at the conclusion of an investigation. The written findings will generally include:

1. A summary of the investigation;
2. The Investigation findings; and
3. A summary of the coordinator's rationale in support of the findings.

Upon receipt of the coordinator(s) written findings, the Title IX Coordinator shall, in writing, simultaneously notify Complainant and Respondent of: the Investigation findings; the sanctions imposed on Respondent, if any; the steps, if any, the School will take to remedy the effects and prevent recurrence of the misconduct, and notice of appeal rights.

If a Complainant has expressed a desire, in writing, not to be notified of the outcome, the School will honor that decision. In such cases, the School will not send the notification itself to the Complainant, but may proceed with any necessary follow-up, including as described below, and may need to provide notification of that follow-up if appropriate.

### **Sanctions**

If the Respondent is found responsible for sexual misconduct or retaliation, the School may initiate a process designed to eliminate the misconduct, prevent its recurrence, and remedy its effects, while supporting the School's educational mission and Title IX obligations. Sanctions or interventions may also serve to promote safety or deter students from similar future behavior. Some behavior is so harmful to the Respondent and/or the School community, or so deleterious to the educational process, that it may require more serious sanctions or interventions including, but not limited to, removal from specific courses or activities, suspension from the School, or expulsion.

### **Appeal**

Complainant or Respondent may appeal the decision of the Title IX Coordinator to the Specs Howard Disciplinary Panel. Written notice of Appeal shall be filed with the Title IX Coordinator within ten (10) days of the date of the Title IX Coordinator's decision. The

Notice of Appeal shall state with specificity why the Title IX Coordinator's decision should not stand.

Complainant or Respondent may seek review only on the following grounds:

- a) A material deviation from the procedures affected the outcome of the case;
- b) There is new and relevant information that was unavailable, with reasonable diligence and effort, at the time of the investigation that could reasonably affect the investigation findings;
- c) The sanctions, interventions and/or remedies are inappropriate or disproportionate to the determined violation(s); or
- d) A review of all available and relevant information indicates that the evidence clearly does not support the finding(s) and provides firm and definite support for modifying the original finding(s).

Upon receipt of a timely filed Notice of Appeal, the Title IX Coordinator shall inform the Specs Howard Disciplinary Panel of the appeal and notify the Complainant (if participating) and Respondent of the date by which the appeal will be decided. The date by which the appeal will be decided may be adjourned for good cause.

Specs Howard Disciplinary Panel shall be composed of a COO or Vice President designated by the President or the Vice President's designee, a representative of the Student Success department, and a faculty member appointed by the Specs Howard School of Media Arts management team.

The Disciplinary Panel's decision should be made within ten (10) days of the date Notice of Appeal is filed with the Title IX Coordinator. These timelines are intended as guidelines and may be extended by the Disciplinary Panel if the circumstances of the case justify an extension.

The Specs Howard Disciplinary Panel will review the matter based on the issues identified in the request for appeal. The Disciplinary Panel may affirm, modify or reverse the decision of the Title IX Coordinator, or remand the appeal to the Title IX Coordinator for additional investigation. The Disciplinary Panel will issue its final and unreviewable decision and make it available to the Complainant (if participating), Respondent (if participating), Title IX Coordinator and Deputy Title IX Coordinator in writing, simultaneously.

## **Timelines**

The School will strive to complete its investigation and the sanction/remedy process, if applicable, and simultaneously share the results of that review with Complainant and Respondent within sixty (60) calendar days after the Title IX Coordinator receives a report of sexual misconduct. There are, however, factors beyond the control of the School that may affect the time needed to conduct a fair, reliable, impartial and prompt investigation of a report of sexual misconduct or retaliation including, but not limited to:

- Availability and cooperation of Complainant (if participating), Respondent (if participating) and/or witnesses
- Illness or injury of School employees conducting or participating in the investigation of the report or appeal
- Weather or other Acts of God that result in the School being closed.

The Title IX Coordinator may extend the time for completing the investigation for good cause. Any such extension shall not exceed thirty (30) calendar days.

If Complainant or Respondent appeals the Title IX Coordinator's decision to the Disciplinary Panel, the timelines are extended to accommodate the time necessary for appeal provided in appeal section of this policy.

## **Student Expectations and Rights**

Certain student protections and expectations pertain to the process for resolving student sexual misconduct and retaliation allegations. Complainants and Respondents participating in this process may expect the following:

### **Respect for Privacy**

Information regarding sexual misconduct and retaliation reports, and any investigation or review of those reports, including any sanction determinations, may be shared with School employees with a legitimate educational interest or with external individuals or entities on a need-to-know basis and only as permitted under School policy and applicable law.

### **Notice of Rights**

Any student or employee who reports an incident of sexual misconduct, whether the incident occurred on or off campus, shall receive a written explanation of their rights and options as provided for under this policy.

### **Participation in Process**

Complainants, Respondents, Reporters or witnesses may choose to participate or decline to participate in the investigation. However, even if a Complainant or Respondent declines to participate the School may continue to investigate the matter and issue findings based on available information.

### **Protection from Retaliation and Assurance of Fair Treatment**

The School will take appropriate steps to ensure that a person who in good faith reports, complains about, or participates in a sexual misconduct investigation will not be subjected to retaliation by the Respondent or by others with knowledge of the underlying report. Anyone who believes they are experiencing retaliation is strongly encouraged to report that concern using the same procedure for reporting possible sexual misconduct under this policy. A retaliation concern will be reviewed as a separate offense under this policy; that is, a person can be found responsible for retaliation even if not found to be responsible for the underlying reported sexual misconduct.

The School also will take appropriate steps to ensure that Respondents accused of sexual misconduct or retaliation is treated fairly throughout the School's review.

### **Coordination with Legal Proceedings**

Students may simultaneously engage criminal prosecution procedures and/or civil litigation in connection with the same behavior that forms the basis of a sexual misconduct report under this policy. In such cases, the School is committed to appropriate coordination with the local law enforcement and may, if requested and appropriate, share information with those agencies. The School will fulfill its obligation to take immediate and appropriate action to investigate possible sexual misconduct even if there are other external processes or procedures pending in connection with that same sexual misconduct report. Similarly, if the

School finds sexual misconduct has occurred, the School will take effective steps to end it, prevent its recurrence, and address its effects, and sanction the Respondent regardless of what external proceedings may also be pending.

Standards for criminal investigations are different than the standards for a violation of this Policy, and therefore the School will not base its decisions under this policy solely on law enforcement reports and/or actions. Accordingly, the School will not normally wait for the conclusion of a criminal investigation or other proceedings before implementing its review of reported sexual misconduct under this policy.

### **Protection Orders**

The School is committed to ensuring that orders of protection issued by courts are fully enforced on School property. Therefore, if a student or employee obtains a Personal Protection Order or Restraining Order, he or she should promptly inform the Student Success Department and provide the School with a copy of that order, so that the School can enforce it. The School is also committed to protecting victims from any further harm, and if the School determines that an individual's presence on campus poses a danger to one or more members of the School community, it can issue an institutional No Trespass letter barring that individual from School property.

### **Interim Support and Assistance**

The school will assist students, faculty and staff who report sexual violence, sexual harassment, stalking, dating violence and or domestic violence in obtaining medical support and information regarding available legal and Student Success resources, as well as counseling and support services. The school will also assist students, faculty and staff in notifying the local police if the assistance of law enforcement is requested.

If requested by the survivor, and if reasonably available, the school may assist the survivor in protective measures such as:

- changing his/her living situation, including identifying possible emergency housing
- assisting the student survivor with exploring options to address academic concerns, such as transferring class sections, taking an incomplete in a class or filing a grade grievance
- dealing with financial concerns, including providing financial aid guidance
- transportation, working and other protective measures

Requests for accommodations may be made to the department in which the accommodation is sought. If you are unsure where to go to make such a request, do not know what accommodations are available or may be useful to you, or have other questions, please contact the Title IX Coordinator and/or the Student Success department.

### **Awareness and Prevention Programs**

The School provides primary prevention and awareness programs for student's sitting in classes for the first time and for all new employees in order to promote the prevention and awareness of rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. The School also offers ongoing prevention and awareness campaigns for students and School employees.

## Resources

If a person is dealing with a stalker or intimate partner abuse/domestic violence situation, it is important to take precautions when accessing any kind of support. In some circumstances, stalkers and/or abusers may access phone or computer records. When possible, people in these situations may want to use public computers or phones to seek out information. It is also good to safeguard your information by frequently changing passwords to random, unpredictable ones. It may also be helpful to think about steps that can be taken to keep information away from a stalker or intimate partner (e.g. keeping things with a friend or getting mail at a different address).

The nature of the resources listed below is for immediate or primary support or advocacy, as well as local ongoing services. These resources include support for sexual assault, domestic violence, addiction, and family services. SHS encourages the complainant to seek pastoral and professional counselors such as are listed below. If you need further assistance, see the Student Success Department.

## **Common Myths and Facts about Sexual Violence**

**Myth:** Victims provoke sexual assaults when they dress provocatively or act in a promiscuous manner.

**Fact:** Rape and sexual assault are crimes of violence and control that stem from a person's determination to exercise power over another. Neither provocative dress nor promiscuous behaviors are invitations for unwanted sexual activity. Forcing someone to engage in non-consensual sexual activity is sexual assault, regardless of the way that person dresses or acts.

**Myth:** If a person goes to someone's room or house or goes to a bar, s/he assumes the risk of sexual assault. If something happens later, s/he can't claim that s/he was raped or sexually assaulted because s/he should have known not to go to those places.

**Fact:** This "assumption of risk" wrongfully places the responsibility of the offender's action with the victim. Even if a person went voluntarily to someone's home or room and consented to engage in some sexual activity, it does not serve as blanket consent for all sexual activity. When in doubt if the person is comfortable with an elevated level of sexual activity, stop and ask. When someone says "no" or "stop," that means "STOP!" Sexual activity forced upon another without valid consent is sexual assault.

**Myth:** It is not sexual assault if it happens after drinking or taking drugs.

**Fact:** Being under the influence of alcohol or drugs is not an invitation for sexual activity. A person under the influence does not cause others to assault her/him; others choose to take advantage of the situation and sexually assault her/him because s/he is in a vulnerable position. A person who is incapacitated due to the influence of alcohol or drugs is not able to consent to sexual activity.

**Myth:** Most sexual assaults are committed by strangers. It's not rape if the people involved know each other.

**Fact:** Most sexual assaults and rape are committed by someone the victim knows. A study of sexual victimization of college women showed that about 90% of victims knew the person who sexually victimized them. Most often, a boyfriend, ex-boyfriend, classmate, friend, acquaintance or co-worker sexually victimized the person. It is important to remember that sexual assault can occur in both heterosexual and same-gender relationships.

**Myth:** Rape can be avoided if women avoid dark alleys or other "dangerous" places where strangers might be hiding or lurking.

**Fact:** Rape and sexual assault can occur at any time, in many places, to anyone.

**Myth:** A person who has really been sexually assaulted will be hysterical.

**Fact:** Victims of sexual violence exhibit a spectrum of responses to the assault which can include: calm, hysteria, withdrawal, anxiety, anger, apathy, denial and shock. Being sexually assaulted is a very traumatic experience. Reaction to the assault and the length of time needed to process through the experience vary with each person. There is no "right way" to react to being sexually assaulted. Assumptions about the way a victim "should act" may be detrimental to the victim because each victim copes in different ways.

**Myth:** All sexual assault victims will report the crime immediately to the police. If they do not report it or delay in reporting it, then they must have changed their minds after it happened, wanted revenge or didn't want to look like they were sexually active.

Revised 9/12/16

Fact: There are many reasons why a sexual assault victim may not report the assault to the police or campus officials. It is not easy to talk about being sexually assaulted and can feel very shameful. The experience of retelling what happened may cause the person to relive the trauma. Another reason for delaying a report or not making a report is the fear of retaliation by the offender. There is also the fear of being blamed, not being believed and being required to go through judicial proceedings. Just because a person does not report the sexual assault does not mean it did not happen.

Myth: Only young, pretty women are assaulted.

Fact: The belief that only young, pretty women are sexually assaulted stems from the myth that sexual assault is based on sex and physical attraction. Sexual assault is a crime of power and control. Offenders often choose people whom they perceive as most vulnerable to attack or over whom they believe they can assert power. Men and boys are also sexually assaulted, as well as persons with disabilities. Assumptions about the "typical" victim might lead others not to report the assault because they do not fit the stereotypical victim.

Myth: It's only rape if the victim puts up a fight and resists.

Fact: Many states do not require the victim to resist in order to charge the offender with rape or sexual assault. Those who do not resist may feel if they do so, they will anger their attacker, resulting in more severe injury. Many assault experts say that victims should trust their instincts and intuition and do what they believe will most likely keep them alive. Not fighting or resisting an attack does not equal consent.

Myth: Someone can only be sexually assaulted if a weapon was involved.

Fact: In many cases of sexual assault, a weapon is not involved. The offender often uses physical strength, physical violence, intimidation, threats or a combination of these tactics to overpower the victim. Although the presence of a weapon while committing the assault may result in a higher penalty or criminal charge, the absence of a weapon does not mean that the offender cannot be held criminally responsible for a sexual assault.

## **Common Myths and Facts about Sexual Harassment**

Myth: Sexual harassment is rare.

Fact: Sexual harassment is extremely widespread. It touches the lives of 40 to 60 percent of working women, and similar proportions of female students in colleges and universities.

Myth: Sexual harassment only happens to women and is perpetrated only by men.

Fact: Both men and women can be victims or perpetrators of sexual harassment. In addition, sexual harassment may occur between members of the same sex.

Myth: The seriousness of sexual harassment has been exaggerated; most so-called harassment is really trivial and harmless flirtation.

Fact: Sexual harassment can be devastating. Studies indicate that most harassment has nothing to do with "flirtation" or sincere sexual or social interest. Rather, it is offensive,

Revised 9/12/16

often frightening and insulting. Research shows that survivors are often forced to leave school or jobs to avoid harassment; may experience serious psychological and health-related problems.

**Myth:** Many victims make up and report stories of sexual harassment to get back at their employers or others who have angered them.

**Fact:** Research shows that less than one percent of complaints are false. In fact, survivors rarely file complaints even when they are justified in doing so.

**Myth:** Women who are sexually harassed generally provoke harassment by the way they look, dress and behave.

**Fact:** Harassment does not occur because women dress provocatively or initiate sexual activity in the hope of getting promoted and advancing their careers. Studies have found that victims of sexual harassment vary in physical appearance, type of dress, age, and behavior. The only thing they have in common is that over 99% of them are female.

**Myth:** If you ignore harassment, it will go away.

**Fact:** It will not. Research has shown that simply ignoring the behavior is ineffective; harassers generally will not stop on their own. Ignoring such behavior may even be seen as agreement or encouragement.

## **POLICY FOR REPORTING THE ANNUAL DISCLOSURE OF CRIME STATISTICS**

The Specs Howard School of Media Arts, Inc., prepares the Annual Security Report to comply with the disclosure of crime statistics as required by 34 CFR 668.46, Student Assistance General Provisions, Institutional Security Policies and Crime Statistics. The compilation of crime statistics uses the definitions of crimes provided in the Federal Bureau of Investigation's Uniform Crime Reporting Handbook.

The School's overall safety policy encourages accurate and prompt reporting of all crimes and emergencies. Criminal activity and emergencies should be reported, either in person or via the telephone, to the appropriate police agency and to the Student Success Department.

This report is prepared in cooperation with the local law enforcement agencies surrounding the school's facilities and the Student Success Department. Each entity provides updated information on their efforts and programs to comply with the Act. Campus crime, arrest and referral statistics include those reported to the SHS Student Success Department and local law enforcement agencies. These statistics may also include crimes that have occurred adjacent to SHS properties. All students, staff and faculty are notified annually of the Annual Security Report.

Specs Howard School of Media Arts, Inc., is committed to providing a safe and secure environment for all members of the SHS community. We work together to prevent crime, fire and accidents.

The school's overall safety policy encourages accurate and prompt reporting of all crimes and emergencies to the Student Success Department, either in person or via an Incident Report Form which is available at the front desk of both campus locations, Southfield and Farmington Hills.

This manual is intended to provide our staff and students with safety and security information and procedures. Reviewing the information will increase your awareness of the services and procedures followed at the school. We encourage our staff and student body to use these to enhance their safety and security.

Specs Howard School is committed to providing a safe environment. However, each of us has a personal responsibility for our own safety. Working together, we can make SHS a safe learning environment.

### **SHS Photo ID**

All SHS staff and students are issued a SHS Photo ID. The ID must be displayed whenever the staff or student is in attendance at SHS.

If a student has misplaced it or forgotten it for the day, they will need to report to the Front Desk for a temporary or replacement badge. If the student does not have their badge visible, an instructor or staff member may stop and ask the student where it is.

## **EMERGENCY POLICIES AND PROCEDURES**

### **Determination of an Emergency**

In the event of a possible emergency situation that would require a campus-wide notification, i.e., bomb threat, explosion, fire, physiological crisis, shooting, tornado, utility failure, or violent criminal behavior, the determination of an emergency will be made in the following manner.

A consensus of opinion is to be reached by at least two of the following staff positions:

- School President
- Chief Operating Officer
- Vice President of Education
- Director of Human Resources
- Director of Student Success
- Department Supervisors
  - Broadcast Media Arts Department
  - Graphics Department
  - Digital Media Arts Department

If none of the above are available or cannot be reached via telephone, a determination will be made by a consensus of opinion of the staff available at that time.

.....

Revised 9/12/16

## **Emergency Notification**

If it is determined to be an emergency situation, SHS will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

Methods of communication will depend on the situation, using some of the methods listed below.

**Alert Sound** - Two Long blasts from an air horn

**Campus-wide E-mail** - Follow instructions in the e-mail.

**Telephones/Overhead Paging System** - Emergency message broadcast over the campus telephone system. Follow the instructions in the message.

**Text Messages (SMS)** - All students, faculty and staff can sign up to receive text messages (SMS) to their text messaging enabled mobile devices. Standard text messaging rates from the subscriber's mobile carrier will apply. Individuals should follow the instructions in the message.

**Verbal Messages** - Spread by staff and students in the buildings.

## **GENERAL EVACUATION INFORMATION**

1. All building evacuations will occur following the determination of an emergency by the appropriate SHS staff. Upon the determination of an emergency, air horns will be sounded to alert all students and staff that an emergency exists. **Two long blasts from air horns will signal the start of an emergency.**  
Air horns will be kept at the front desk of each location, and at other key areas, as determined by the Student Success Department.
2. Know the marked exits for your building. Know the exit routes for your work area.
3. Leave the building immediately with your personal possessions (purse, cell phone, laptop, etc.) when directed by SHS staff.
4. Notify staff of persons with disabilities who are in the building and cannot evacuate.
5. Notify other occupants, other than SHS staff and students, about the evacuation.
6. Do not use the elevators in the case of a fire.
7. (Southfield Campus) Once outside, move to the area on the east side of the parking lot near the brick wall.  
(Farmington Hills Campus) Once outside, move to the area in the middle of the parking lot adjacent to the school entrance.
8. All instructional staff, in class at the time of an emergency evacuation, will be responsible for verifying that all class members have evacuated the building, and are present at the gathering area. Verification of students and/or missing students is to be reported to senior SHS staff.
9. All department heads are responsible for verifying that all department members have evacuated the building, and are present at the gathering area. Verification of personnel and/or missing personnel is to be reported to senior SHS staff.

10. Keep driveways and sidewalks clear for emergency vehicles and personnel. Do not return to the evacuated building unless directed to do so by SHS staff. Notify someone if you leave the assembly area.
11. Senior SHS Staff will determine if operations will resume, or if the building will be closed. Students will be notified of that decision.

In the event of an emergency occurring at a campus other than the main Southfield campus, SHS staff at that location will notify the main campus. That notification will be communicated to the President, Student Success Department and Vice President of Education, and will include information regarding what type of emergency and actions being taken.

### **Annual Test of Emergency Evacuation Procedures**

There will be an annual test of an emergency response evacuation conducted by SHS. This test will be conducted via desktop and will be documented by the Student Success Department.

Any student or staff receiving a telephone call that a bomb or other explosive device has been placed on the campus should obtain as much information from the caller as possible.

1. Time of the call and the phone line on which the call was received.
2. Description and location of the alleged bomb.
3. Perceived personal characteristics and gender of the caller.
4. Noticeable speech pattern, accent, etc.
5. Description of any background noise.
6. Reason the bomb was placed on the campus.

The appropriate police department will conduct a detailed bomb search.

Everyone is to leave the building via the nearest marked exit and should alert others to do the same. Assist persons with disabilities in exiting the building.

If there are persons with disabilities who are in the building and cannot evacuate, notify the police or emergency personnel.

Once outside, everyone should be moved away from the building as far as possible. Keep driveways and sidewalks clear for emergency vehicles and personnel. No one will be allowed to return to the evacuated building unless directed to do so by the police department and/or SHS staff.

Revised 9/12/16

## **Explosion, Aircraft Crash or Similar incident**

Immediately seek cover under tables, desks or anything that will provide protection against falling glass or debris.

After the effects of the incident have subsided, call 911. Give your name and describe the location and nature of the emergency.

If the building should be evacuated, follow the instructions in **General Evacuation Information**.

Notify emergency personnel of persons with disabilities who are in the building and cannot evacuate.

Do not use the elevators in case of a fire.

Once outside, everyone should be moved away from the building as far as possible. Keep the driveways and sidewalks clear for emergency vehicles and personnel. No one will be allowed to return to the evacuated building unless directed to do so by the police department. Notify someone if you leave the area.

Do not return to the area. Do not pick up any debris. Do not light a match or smoke.

## **Fire**

Immediately call 911 and report a fire giving address and location of the building. Notify the front desk and evacuation orders will be given throughout the building.

Evacuate the area immediately, closing doors as you leave, but do not lock the doors.

Evacuate the building using the most direct route and nearest exit, following the guidelines in **General Evacuation Information**.

Do not use elevators.

Staff and students will meet at the assembly area for accountability and in case information or assistance is needed.

Notify fire or other emergency personnel concerning any special circumstances, such as failure of staff to evacuate persons with disabilities. Notify emergency personnel of any other possibilities of any persons who may not have evacuated the building.

Should you become trapped in a location, call 911, if possible, to inform the fire department of your location. If near a window, place the largest and most visible piece of material in that window to indicate your location, and stay low on the floor.

## Lockdown

Our school environment is intended to be open so that students, faculty and staff can freely communicate in a friendly environment. SHS has few restrictions on who can enter or leave the campus. However, given the times that we live in with threats of terrorism, other hostile events, or even natural disasters, the school must be prepared to deal with these situations in a proactive manner.

As the nation, state and community develop plans to cope with the various levels of threat, SHS is obligated to do its part to protect the safety of our students and plan for continuity of future operations. There are situations where a lockdown of facilities may be necessary to afford this protection or gain control over a given situation.

Although lockdown is not necessarily a preferred method of planned reaction to given situations, students should understand that it might be used in certain situations. Some examples may include:

- Chemical release from a local industry
- Sniper on campus
- Terrorist threat to the school or area near the school
- Police action

Notification of a lockdown situation may vary depending on the situation.

## Lockdown Procedures

The term "Lockdown" refers to a dangerous circumstance within or nearby the school facility that, for safety reasons, warrants every person in the building to immediately go to a room, lock the door(s), turn off the lights, and remain out of view of the door's window (if applicable).

Upon the determination of any emergency by the appropriate SHS staff members that warrants a Lockdown, the following steps will be taken:

1. An SHS staff member will call 911 if the police have not already been notified of the circumstance.
2. Announcement will be made over the Telephone/Overhead Paging System and Verbal Messages. **"SCHOOL LOCKDOWN"** will be announced three times.
3. All classrooms will be notified using the same procedure.
4. Other tenants in the building and the appropriate building manager will be notified.

Employees who are near studios, labs, lobby areas, restrooms, and other areas where students may gather, will notify students of the school Lockdown and direct them to rooms that can be locked.

All employees will notify other employees who are in meetings that potentially have their phones blocked with DND (Do Not Disturb), and potentially did not hear the Lockdown announcements.

On the Southfield campus, employees who are on the 2<sup>nd</sup> floor will immediately notify students on the 2<sup>nd</sup> floor, including hallways and restrooms, of the school Lockdown. This notification should include the other building tenants on the 2<sup>nd</sup> floor, Rochester College and MJI.

Revised 9/12/16

Once a Lockdown announcement has been issued, everyone should remain in Lockdown until they receive a notification that the Lockdown has been deactivated. Determination of a deactivation of a Lockdown will be made by the staff that made the determination to activate the Lockdown.

Notification of the deactivation of Lockdown will be given using the same notification procedures listed above.

## **Shooting Incident**

The Specs Howard School of Media Arts, Inc., hopes it never experiences a shooting incident, but it is important that everyone should know what to do if it were to happen on our campus.

This type of incident is unpredictable, and your immediate response depends on the situation you may face. The following guidelines are based on the best practices established by law enforcement.

If it possible to do so safely, exit the building immediately when you become aware of the incident, moving away from the immediate path of danger, and take the following steps:

1. Notify anyone you may encounter to exit the building immediately.
2. Evacuate to a safe area away from the danger, and take protective cover. Stay there until assistance arrives.
3. Call 911, providing the dispatcher with the following information:
  - a. Your name
  - b. Location of the incident (be specific as possible)
  - c. Number of shooters (if known)
  - d. Identification or description of shooter. Number of persons who may be involved
  - e. Your exact location
  - f. Injuries to anyone, if known
4. Individuals not immediately impacted by the situation are to take protective cover, staying away from windows and doors until notified otherwise.

If you are directly involved in an incident and exiting the building is not possible, the following actions are recommended:

1. Go to the nearest room or office.
2. Close and lock the door
3. Turn off the lights
4. Seek protective cover
5. Keep quiet and act as if no one is in the room
6. Do not answer the door
7. Notify 911 if it is safe to do so, providing the dispatcher with the following information:
  - a. Your name
  - b. Your location (be specific as possible)
  - c. Number of shooters (if known)
  - d. Identification or description of shooter(s)
  - e. Number of persons who may be involved
  - f. Injuries if known
8. Wait for police to assist you out of the building

In either of the circumstances listed above, if you are able to call 911, you should then call the front desk of the school and inform them of the situation.

A campus-wide Lockdown would then be issued, follow the procedures outlined in **Lockdown Procedures**.

### **Psychological Crisis**

A psychological crisis exists when an individual is threatening harm to himself/herself or to others, or is out of touch with reality due to severe drug reactions or psychotic break. A psychotic break may be manifested by hallucinations, uncontrolled behavior or the person could be a run-away from a mental hospital.

If encountering a person who seems to be having a psychological crisis, call 911.

### **Tornado**

If a Tornado Warning is issued by the National Weather Service for the area immediately adjacent to one of the campuses, and/or if a tornado is sighted near one of the campuses, take the following steps:

1. If indoors, students will go to the lowest level of the building. Interior hallways and rooms are preferable, away from glass windows. At the Southfield campus, people should gather in Video Studio A and Video Studio B. At the Farmington Hills campus, people should gather in hallway area near the Student Lounge.
2. If outdoors, go to the nearest ditch or depression, away from power lines, buildings and trees. Do not stay in a car or attempt to outrun a tornado.
3. If a tornado occurs, and after it has passed, evaluate the situation and if emergency help is needed, call 911. Be aware of dangerous structural conditions. If a determination is made that the building should be evacuated, do so following the guidelines in **General Evacuation Information**. Report damaged facilities to the Operations Department and/or the Building Manager. Note: Gas leaks and power failures create special hazards. Do not light a match or smoke. Refer to the section entitled **Utility Failure**.
4. Notify emergency personnel of persons with disabilities who might be in the building and cannot evacuate.
5. Do not use elevator in case of fire.
6. Once outside, everyone should move away from the building as far as possible. Keep the driveways and sidewalks clear for emergency vehicles and personnel. Do not return to the evacuated building unless directed to do so by emergency personnel.

### **Utility Failure**

1. In the event of a utility failure, notify the front desk receptionist who will then contact the appropriate Building Manager.
2. If there is danger to building occupants, call 911.
3. Do not use the elevators in case of fire.

### **Electrical / Light Failure**

On the event of an electrical failure, notify the front desk receptionist who will then contact the appropriate Building Manager & **contact Detroit Edison at 800-477-4747**. In the event of an electrical failure lasting more than 10 minutes in a building, students and staff should evacuate the building. Emergency lighting is only required in certain areas, and is

only designed to provide enough lighting to exit the building in an emergency. Additionally, battery operated emergency lights only last for a short time (approximately 20 minutes) to illuminate areas for exiting the buildings. Evacuation of the building should follow the guidelines as given in **General Evacuation Information**.

### **Elevator Failure**

If someone is trapped in an elevator, notify the front desk receptionist who will then contact the appropriate Building Manager. Never attempt to extract a person from an elevator stopped between floors.

### **Plumbing Failure/Flooding**

Cease the use of all electrical equipment. Notify the front desk receptionist who will then contact the appropriate Building Manager. If necessary, vacate the area.

### **Serious Gas Leak**

Vacate the area. Do not switch on or off lights or any electrical equipment; electrical arcing can cause an explosion. Do not smoke, light matches or lighters. Notify the front desk receptionist who will then contact **Consumers Energy at 800-477-5050** and the appropriate Building Manager. If determined to be an emergency situation, the building will be evacuated following the guidelines in **General Evacuation Information**.

### **Ventilation Problem**

If fire or odor comes from the ventilation or equipment, vacate the area. Once outside, move to a clear area, a safe distance from the affected building. Notify the front desk receptionist who will then contact the appropriate Building Manager. If the entire building is to be evacuated, do so following the guidelines in **General Evacuation Information**. Do not return to the evacuated building unless directed to do so by SHS staff.

### **Weapons and / or Violent Criminal Behavior**

Be alert for suspicious situations or persons and report them to the front desk personnel and/or the Student Success Department. Do not attempt to confront any individuals. Should a situation arise where you feel that you or someone else is in immediate danger, make every attempt to call 911. If safe, leave the building immediately. If such exit could expose you to further danger, lock yourself inside a room and barricade the door. Lie on the floor and await the arrival of police personnel. When the police arrive, stay on the floor and do not move until told to do so by the police.

If you are a victim or witness any on-campus violation of the law, such as assault, robberies or theft, contact 911 as soon as possible and give them the following information:

1. Nature of the incident
2. Location of the incident
3. Description of the person(s) involved
4. Description of the property involved

If you are a witness to a criminal act or notice a person acting suspiciously on campus, notify 911 and give them the information outlined above.

## **Medical and First Aid**

If a serious injury or illness occurs, call 911 and/or tell a SHS faculty or staff member. If calling 911, give your name, description of the nature and severity of the medical problems and the location of the victim(s).

While waiting for emergency personnel, perform the following steps:

1. Keep victim still and comfortable. Do not move the victim
2. Ask victim, "Are you okay?" and "What is wrong?"
3. Monitor breathing and condition of victim
4. Control serious bleeding by direct pressure on the wound
5. Look for emergency medical I.D. Question witnesses and give all information to emergency personnel

In the case of a minor injury or illness, first aid materials are located in the building. At the Southfield campus, supplies are found at the front desk. At the Farmington Hill campus, supplies are found in the staff lunchroom.

**Note:** Professional medical care should be sought after first aid is given.
